Comments: Dear Sirs,

It is in my opinion that a dump at Yucca Mountain is not a good Idea, for four reasons.

1. The cities around Yucca Mountain are growing rapidly, In ten or twenty years who knows how many people will be living in southern & northern Nevada. This site is just to close to these cities!

2. Transportation of any type of waste through populated cities is a risk the goverment should not even consider!

3. Most important, people in this state do not want the dump hear.

4. No matter how much you lie and tell the people geologically that it is safe, any one that has lives hear knows that it is not!

Sincerely,

552034

Fred Cartwright
